EXPERIENCE

2018

EVENT HOST
Experienced in hosting and presenting events, including public speaking and engaging with audiences to create a positive atmosphere.

2019

WEBSITE CREATOR
Website creator
• I created a website for a tyre service. (https://padangu-montavimas-panevezyje.business.site)

2023

MAINTENANCE TECHNICIAN INTERNSHIP
I was responsible for the equipment I had on hand, to ensure that it is in good working order and in accordance with requirements.

OBJECTIVE

To secure a junior web developer position where I can utilize my technical skills and knowledge in a challenging environment.

EDUCATION

HIGH SCHOOL

Panevezys 5th gymnasium

2018 – 2022

BACHELOR OF INFORMATION SYSTEMS ENGINEERING

Vilnius College of Technologies and Design

2023 Expected Graduation: 2025

MEMBERSHIP IN ORGANISATIONS

Charity "Maisto bankas"

Position: Assistant

I understood what teamwork meant and was able to help people who had certain disabilities.

Panevezys Football Academy

Position: Player

I've been playing football for probably 15 years until now, but I've had a big responsibility at my club, I've had to clean up the environment with the whole team, I've played a couple of matches with orphans for a charity. I'm also now pursuing this as a hobby in Vilnius at VJFK Trakai

Lithuanian Union of Schoolchildren

Position: Participant

I don't know how much it counts, but my friends and I took part and contributed to the distribution of the CS:GO tournament.

CERTIFICATIONS

Professional Development:

- Page design, 2022
- Blockchain Bootcamp 2022
- Columbus internship for programmers 2023
- Code Foundations Skill Path 2023
- Learn Java Course 2023
- Learn Sass Course 2024
- Introduction to UI and UX Design Course 2024
- Using DNS Course 2024
- Front-End Engineer Career Path 2024
- Intro to Generative AI 2024
- Defending Against AI-Generated Attacks 2024

Skills that I gained:

- Page design: Completed a 5-hour course on website development, focusing on IT innovations. Expected results pending.

- Blockchain Bootcamp 2023: Participating in a program with the Serbian University to learn PyTeal and smart contract development on the Algorand blockchain.

- Columbus internship for programmers: Microsoft Navision / Dynamics 365 Business Central; Azure DevOps; Microsoft SQL Server; .NET;

- Maintenance Technician Internship: In addition I had experience developing with JAVA, SpringBoot and PostgreSQL;

- Leveled up my HTML, CSS, Java, JavaScript, ReactJS and other framework skills with Codecademy. Mastered Java programming, debugging, and created websites using HTML/CSS. Explored JavaScript and React for interactive interfaces—all part of my growing skill set.

RECOMMENDATIONS

RECOMMENDATION

2024-02-12

VILNIUS

I highly recommend Dominykas, a student from my Object-Oriented Programming and Database Systems courses. Dominykas consistently demonstrated a strong grasp of theoretical concepts and an exceptional ability to apply them in practical scenarios. His active participation in class discussions and collaborative approach in group projects highlighted his analytical skills and dedication.

Dominykas is not only a quick learner but also possesses a strong work ethic, making him an outstanding student. I am confident that his commitment to learning and collaborative nature will contribute positively to any academic or professional environment.

Please feel free to contact me for any additional information.

With the utmos confidence,

Jelena Mamčenko

Lecturer of Object-Oriented Programming, and Database Systems

VILNIUS

I would like to express my high appreciation and recommendation to Dominykas Pavlius, who was the host of our company's celebration. We were impressed by his professionalism, creativity, punctuality and ability to manage events with a large number of participants.

Dominykas Pavlijus adapted perfectly to our company's needs and managed to combine creativity with entertainment, ensuring that the event was both educational and fun. His ability to create a positive and energetic environment not only made the event memorable but also left a positive impression on the participants. Dominykas Pavlijus also did a great job programming LEGO robots using PYTHON language in the educational programme.

I would recommend Dominykas Pavlijus as a reliable and creative professional for organizing company events, working with children and robots. He really brings added value to any event and education.

With the utmos confidence,
Gabrielė Norvaišienė
Founder of Celebration Creators

VILNIUS

I am writing to recommend Dominykas Pavlijus for a job in the field of programming. As Dominykas's instructor in the programming course, I can attest to his strong work ethic, technical skills, and exceptional problem-solving abilities.

Throughout the course, Dominykas has demonstrated a deep understanding of complex topics such as Workshop project with WP system and still is learning Internet of Things, and Biometric data recognition: face identification. He consistently showed an eagerness to learn and engage with challenging material, and was always willing to assist his peers in their own learning.

Dominykas also demonstrated excellent time-management and communication skills. He consistently met project deadlines and was able to communicate his ideas clearly and concisely both in written and verbal formats.

In summary, I strongly recommend Dominykas Pavlijus for any programming-related position. I am confident that he would be an asset to any team, and his commitment to excellence would make him a valuable contributor to any organization.

Please do not hesitate to contact me should you require any further information.

VILNIUS

Dominykas Pavlijus studies at Vilnius College of Technology and Design from 2022. He is a first year student of the "Information Systems Engineering".

In the first year, I taught Software Engineering and supervised the Technology Practice for Dominykas. During the course "Software Engineering" the student got acquainted with the methods of analysis of the subject area, activity modelling, specification of information needs and mastered the activity modelling technologies. He also created a software system life cycle model for a selected project and planned a project work plan.

During the technological practice, the student learned how to design and develop web pages:

- using Figma software to design and prototype a website;

- using Visual Studio Code to describe HTML and CSS codes.

Dominykas was a motivated and diligent student, completing all tasks on time and creatively. He is also a critical thinker and has the ability to present his opinion on a topic in a reasoned manner.

I advise you to consider Dominykas Pavlijus for employment with you (internship), which would allow him to turn the knowledge he has acquired into practical skills.

In case of any questions:

v.laukiene@vtdko.lt

Sincerely,

Lecturer in Information Systems Design

VILNIUS

I am writing to recommend Dominykas Pavlijus, a student of Vilnius College of Technology and Design, for all possible job opportunities in your company. I had the pleasure of teaching physics to Dominykas and I am sure he would be a valuable member of any team.

Dominykas is an intelligent and motivated student with a natural curiosity and a passion for excellence. He has consistently demonstrated a good understanding of physics concepts and the ability to apply this knowledge to solve complex problems. His analytical and critical thinking skills, as well as his attention to detail, are noteworthy and have enabled him to achieve excellent academic results.

In addition to his academic achievements, Dominykas is also a diligent and hard-working individual who is eager to take on new challenges. He constantly demonstrates a willingness to go beyond his academic work, and I am confident that he could show the same dedication in any professional role.

In conclusion, I would recommend Dominykas Pavlijus for any job opportunities that may arise in your company. He is a talented, hard-working and dedicated individual with a strong background in physics and mathematics, and I believe he will be a great addition to your team. Please do not hesitate to contact me if you need further information or have any questions.

RECOMMENDATON

2023-03-28

VILNIUS

Dominykas Pavlijus has been and still is studying Informations Systems Engineering at Vilnius College of Technologies and Design from 2022. During his study year we worked together for two semesters. He revealed himself as a brave and intelligent young person who has his reasoned opinion on any subject of discussion. Dominykas was a perfect person to get a group project rolling, but he also knew how to sit back and let others take the lead.

As a student, Dominykas Pavlijus has had a comprehensive approach to the study subjects he had to accomplish here at the College, so he will surely be able to adapt to any circumstances, where he can express himself and fulfil his ambitions as a specialist who has a wide systemic thinking and an excellent sense of humour.

During the English classes Dominykas Pavlijus has always demonstrated a high level of proficiency in the language usage in terms of writing, speaking, listening and reading. He is truly a stand-out personality who will impress everyone he meets.

I strongly recommend to consider the personality of Dominykas Pavlijus as a student who will completely reveal himself as a leader at the placement you offer. If you have any questions, please do not hesitate to contact me.
